Thursday	8:10 pm	1.1	3:29 am	0.7	6:08 am	6:58 pm		

All times given are Hawaiian Standard Time.

The columns of height give the elevations of each tide above the plane of chart soundings. The numbers are always additive to the chart depth unless preceded by the minus (—) sign when the numbers are subtractive from the depth given on the chart. To find the time of tide and height of high or low water at the following places, either add, subtract or multiply (*ratio) as indicated from the Honolulu predictions.
